

Building On Faith

A house-building event joining together congregations of various faiths and membership sizes in partnership with deserving, low-income families

WHY? It's a way to model how Jesus' apostles served by going out into the community to minister to others. It's a tangible way for congregations to put their faith into action and reach beyond church walls. It encourages volunteerism, builds friendships, enables participants to see tangible results of their efforts and offers an opportunity to contribute to the community.

WHO? Any congregation or faith-based group desiring to share God's love and lead people to grow in their faith.

WHEN? Fall during Advent Season and in the spring during Lenten Season. However, Habitat Birmingham can customize a build schedule or meet mission goals. For example, we host an annual Pope Francis House build with catholic parishes.

HOW? Make a financial contribution at a level of your choice, commitment to prayer support and volunteer labor to help with house construction. No construction experience is required; must be at least 14 years old.

Congregations of different faiths and sizes join together for Building On Faith. (pictured) All Saints' Episcopal Church, CrossPoint Church, Integrity Baptist Church, Riverchase United Methodist Church, St. Thomas Episcopal Church, and Trinity United Methodist Church.

Builder:
